

C Smithville and Longview Dam and Reservoir, Missouri, Projects Records, 1978-1979  
2519 0.4 linear feet

This collection is available at [The State Historical Society of Missouri](http://The State Historical Society of Missouri). If you would like more information, please contact us at [shsresearch@umsystem.edu](mailto:shsresearch@umsystem.edu).

## INTRODUCTION

The records of the Smith and Longview Dam and Reservoir contain National Architectural and Engineering Record/Historic American Buildings Survey photographs, field records, historical and descriptive data, maps, and drawings of historic architectural structures at the Smithville and Longview Lakes, MO. Included are Longview Farm, Rockford School, James Poff and Sophia Rollins residences, Reuben Ross barn, and Waddell "A" truss bridge.

## DONOR INFORMATION

The records were donated to the State Historical Society of Missouri by the U.S. Army Corps of Engineers through Donald L. Fritts on 3 December 1980 (Accession No. SUNP2351). An addition was made on 2 April 1981 by the U.S. Army Corps of Engineers through Donald L. Fritts (Accession No. SUNP2365).

## FOLDER LIST

- |                |  |
|----------------|--|
| f. 1-32        | Historical Data and Photographs  |
| f. 1-5         | Written and descriptive data of the Reuben Ross barn, Sophia Rollins and James Poff houses, Rockford School, and Longview Farm.  |
| f. 6-26        | Photographs. Longview Farm.  |
| f. 27          | Photographs. Rockford School and Chapel Road House.  |
| f. 28-29       | Photographs. Sophia Rollins house.   |
| f. 30          | Photographs. Reuben Ross barn.   |
| f. 31-32       | Photographs. James Poff house.   |
| f. 33 OVERSIZE | Measured Drawings  |
| sheets 1-5     | Reuben Ross Barn. This barn was built by Reuben Ross in 1925 to service his 140-acre farm. Located five miles northeast of Smithville in Clay County, it was built to house farm machinery, feed, and live-stock.  |
| sheet 1        | Location map   |
| sheet 1        | Floor plan   |
| sheet 3        | Southeast elevation  |
| sheet 4        | Northeast elevation and section B-B  |
| sheet 5        | Section A-A  |
| sheets 6-8     | Waddell "A" Truss Bridge (Linn Branch Bridge), 1898. Patented by J.A.L. Waddell, 13 November 1894, this bridge is the only surviving example of the truss type identified by the Historic American Engineering Record as of 1979. The "A" truss was conceived as an economical short-span, pin-connected |

	structure capable of carrying heavy traffic without excessive vibration.
sheet 6	Plan and partial sections, north elevation and half section, and plan of chords
sheet 7	Location maps and diagram of construction parts
sheet 8	Diagram of construction parts
sheets 9-13	Rockford School. Located at Longview and Raytown Roads in Jackson County, the original wood-frame building was replaced in 1916 by a brick structure. The school was one of four one-room elementary schools built in 1916 by the Hickman Mills Consolidated School District No. 1 and designed by J.H. Felt and Company of Kansas City.
sheet 9	Site plan
sheet 10	Basement plan
sheet 11	First-floor plan
sheet 12	East elevation
sheet 13	Section A-A
sheets 14-54	Longview Farm. Longview Farm, completed in 1914, was an estate built for Robert Alexander Long, a wealthy Kansas City lumberman. Located twenty miles south of Kansas City, Longview was intended to be both a rural retreat for the family and a working farm. Each activity was located in a specific area, such as the greenhouse, dairy, hog, show horse and work horse complexes, spread out over the 1700-acre estate with employees' housing interspersed. Designed by Henry F. Hoit, a prominent Kansas City architect, the buildings of Longview form an ensemble which is reinforced by the consistent use of stucco walls and red tile roofs. Longview was well-known for its fine breeds of show horses, pure milk, prize hogs, and prize roses, as well as the philanthropic interests of its owner, Robert A. Long. The farm, never intended to be profit-making, remains a tribute to his lifestyle and vision.
sheet 14	History of site and gate elevation
sheet 15	Overall site plan
sheets 16-24	Longhouse Farm Greenhouse Complex. The greenhouse complex, lying northwest of the main residence, has three major components, each with separate but related functions: the garage/apartment/powerhouse, the greenhouses, and the greenhouse manager's house.
sheet 16	Site plan.
sheet 17	Garage, first-floor plan. Apartments, second-floor plan.
sheet 18	Engine room, boiler room, floor plan. Potting room, first-floor plan.
sheet 19	Typical greenhouse floor plan.
sheet 20	West elevation of garage/apartments, engine room, boiler room, and potting room.

sheet 21	South (front) elevation of garage/powerhouse/greenhouses.
sheet 22	West elevation of greenhouses.
sheet 23	Greenhouse manager's house. First-and second-floor plans.
sheet 24	Greenhouse manager's house. South and west elevations.
sheets 25-41	Longview Farm Work Horse Complex. The work horse complex, located in the southwest corner of the farm, consisted of the work horse barn, paint/carpentry/blacksmith shop, wagon shed, implement shed, and boarding house surrounding a central green. Serving the farm's day-to-day operational needs, these structures were among the first completed.
sheet 25	Site plan
sheets 26-29	Work horse barn, first-and second-floor plans
sheets 30-31	Work horse barn, northeast elevation
sheet 32	Work horse barn, southeast elevation and transverse section A-A
sheets 33-34	Work horse barn, longitudinal section B-B
sheets 35-37	(Hotel) Boarding house, basement, first-and second-floor plans
sheets 38-40	(Hotel) Boarding house, northwest, southwest, southeast elevations.
sheet 41	(Hotel) Boarding house, transverse section A-A
sheets 42-54	Longview Farm Additional Residences. The general manager's house, the assistant manager's house, the six workers' cottages, and gate lodge no. 2 are all examples of the living accommodations provided on the farm for married workers who had varying levels of responsibility. Other workers' housing was scattered over other areas of the farm.
sheet 42	Workers' cottages, site plan, typical floor plan, and typical north (front) elevation
sheets 43-45	General manager's house, basement, first-and second-floor plans
sheet 46	General manager's house, south and east elevations
sheet 47	General manager's house, longitudinal section A-A
sheets 48-49	Assistant manager's house, first-floor and roof plans
sheets 50-51	Assistant manager's house, south and east elevations
sheet 52	Assistant manager's house, transverse section
sheet 53	Gate lodge 2, basement, first-floor, and roof plans
sheet 54	Gate lodge 2, northwest elevation
