ORGANIZATIONAL SKETCH

The Missouri Veteran Stories program honors Missouri's military veterans by capturing their stories on DVD, to be preserved for future generations.

As a testimony to the state's rich contribution to America's freedom, Missouri has over 500,000 military veterans living in the state today. Each has an experience and a story to tell that can benefit us all. However, each day more of our military veterans pass away; and their stories go with them. Missouri Veterans Stories, a company hired by the Lt. Governor's Office, collected these stories from our veterans and displayed them online for the benefit of our veterans, our state and our country. The program was open to all men and women currently residing in Missouri who had served in any branch of the United States military.
