Historical Note:

The Kansas City Medical Library Club was organized for the purpose of maintaining a library of current medical literature and a large collection of textbooks and reference works. It is assumed that the Library Club at some later date was absorbed into the Jackson County Medical Society.

Arrangement:

The collection folders have been arranged alphabetically. Contents within the folders are arranged chronologically.

Scope and Content Note:

The Kansas City Medical Library Club Records contain annual membership subscription cards, correspondence, and notes. The bulk of the records are annual membership cards. Most cards state the amount of the subscription, the signature of the member, the address of the member, and the date completed. The correspondence and notes folder contains miscellaneous documents regarding financial contributions, membership resignations, and library usefulness.
