Introduction

The collection consists of over 400 professional quality ¾" U-matic video tapes, produced by Hispanic Productions, Inc. at American Cablevision, 1977-1996, for local television broadcast. Programs concerned the Hispanic Community in the Greater Kansas City area. Also included are some organizational files. Approximately 36 cu. ft.

History

Hispanic Productions was formed in 1981 for the purpose of presenting Hispanics in a positive light in the media. Their primary efforts were to increase the visibility and to promote the concerns of the Hispanic people through television programming. In June 1982, the weekly cable television series titled "La Comunidad" began on American Cablevision's community access channel.

The programs were in both English and Spanish on a variety of topics including: health care, immigration, community awareness, cultural concerns, job and leadership training, military veterans, bi-lingual education, voter education and many others. Civic awareness was promoted by featuring prominent Hispanics as role models. National leaders such as Governor Toney Anaya of New Mexico, United Farm Workers union president Cesar Chavez, ACTION (national volunteer organization) president Donna Alvarado, U.S. Hispanic Chamber of Commerce president Hector Barreto, and many local leaders were featured in the series. A monthly cultural program featured: Mexican bands from Kansas City and Mexico; South American music of Peru and Chile; Afro-Cuban music; art and dance from Guatemala; and, music from the Caribbean.

The production company was also committed to providing free training to anyone interested in the use and operation of television equipment. They were particularly interested in training Hispanic youth in all areas of television production. The primarily Hispanic production crew worked to educate Hispanics in the greater Kansas City area and throughout the Midwest about the opportunities that exist to improve their quality of life.

By 1986, Hispanic Productions had received its not-for-profit, tax-exempt status. In October of that year, their 200th program was aired on American Cablevision. Additionally, the series was shown on TCI Cable of Kansas, Wyandotte Cable and on Topeka public television station, KTWU-11, serving a potential viewing audience of 125,000 households.
