This collection is available at The State Historical Society of Missouri Research Center-Kansas City. If you would like more information, please contact us at shsofmo-kc@umsystem.edu.

Introduction

.5 cu. ft.

The records include annual reports, meeting minutes, director's files, publications, and reports relating to this Kansas City, Missouri, community-based organization focused on urban core revitalization and environmental improvements.

Historical Sketch

In 2009, U.S. Rep. Emanuel Cleaver II conceived of the Green Impact Zone as a way to put federal stimulus dollars to work to strengthen neighborhoods, create jobs and improve energy efficiency.

The Green Impact Zone was a 150-square block area in the urban core of Kansas City, Missouri, that served as a national model of place-based investment, demonstrating how a distressed community can be transformed through intense, focused coordination of programs and resources.

The Green Impact Zone office closed in January, 2014. The city of Kansas City, MO, allocated funds to the Mid-America Regional Council in 2009 to launch the Green Impact Zone Initiative and provide staff support.

Restriction

The donor does not own copyright to the materials.

Donor Information

This gift was received from Carol Grimaldi as accession KA2247 on June 26, 2014.
