These are photocopies of miscellaneous city and county documents. Included are tax records, a census of school-age children, loyalty oaths, and ballots from the elections of 1876. There are also pamphlets containing a report on mining and manufactures to the Missouri legislature, 1881, and an address by Gov. Thomas T. Crittenden, printed in German, 1883.

These items were found in the attic of the Ste. Genevieve County jail after a fire damaged the building. The originals are in the custody of the Ste. Genevieve County Court, which loaned them to the Western Historical Manuscript Collection-Rolla for photocopying.
