**R**      **Bradford family.**  
**647**      **Papers, 1722-1998.**  
            **Eight record storage boxes.**

This collection is available at [The State Historical Society of Missouri](http://The State Historical Society of Missouri). If you would like more information, please contact us at [shsresearch@umsystem.edu](mailto:shsresearch@umsystem.edu).

These are papers collected by Dr. Vance A. Bradford while conducting genealogical research on the Bradford family. Included are six boxes of correspondence with and about descendants of Samuel Bradford of Snow Hill, Maryland, and two boxes of papers from the Duncan homestead in southern Phelps County, Missouri.

Vance Arthur Bradford was born on a farm near Plato, Missouri, on 16 November 1910. He was the son of William Henry Bradford and Grace Evelyn Matthews Bradford. He received an M.D. degree, specializing in surgery, from the University of Oklahoma in 1938. On 26 May 1940 he married Margaret Elizabeth McRae in Oswego, New York, on 26 May 1940. Dr. Bradford died in Oklahoma City, Oklahoma, on 23 October 1998.

Dr. Bradford's genealogical research began around 1970 and eventually developed into a quest to identify all of the descendants of Samuel Bradford of Snow Hill, Maryland, who died in about 1812. One of Samuel's sons, Adam (1775-1849), was a pioneer resident of what is now Phelps County, Missouri, and was a direct ancestor of Vance A. Bradford. Many field trips and a voluminous correspondence resulted in the publication in 1985 of *Bradford Descendants*, an 811-page summation of Dr. Bradford's research.

The Bradford family papers have been divided into two sections. The first, and largest (six record-storage boxes) section consists of Dr. Bradford's genealogical correspondence, arranged alphabetically by correspondent. Also included in this section are documents and papers related to his ancestors that Dr. Bradford acquired on his research trips. These materials have been filed under the name of the person to whom they refer. The "Folder List" notes the name of each of the correspondents and documented persons.

The second section, in two record-storage boxes, consists of papers apparently collected by Annie Duncan Freeman, a kinswoman of Dr. Bradford's, and removed from the Duncan homestead in southern Phelps County by Dr. Bradford. These papers have been arranged by name and topic.

The Bradford family papers will be a useful supplement to researchers who have consulted *Bradford Descendants* and who desire to see the original correspondence and documents that led to and supported its publication.

**Shelf List**

These are papers collected by Dr. Vance A. Bradford while conducting genealogical research on the Bradford family. Included are six boxes of correspondence with and about descendants of Samuel Bradford of Snow Hill, Maryland, and two boxes of papers from the Duncan homestead in southern Phelps County, Missouri.

**Section A: Genealogical Correspondence, 1970-1998 (93 folders and 2 binders).**

This section consists of correspondence with descendants of Samuel Bradford, and, less frequently, documents concerning Bradford ancestors. The filing is alphabetical by correspondent or ancestor. A detailed list of correspondents can be found on the separate "Folder List" for this collection. Folder 93 contains copies of the *Bradford Compact Newsletter* (1996-1998). Filed after the folders are two binders: "Clan McFarland" and "Clan McFarland – Bradford Cousins."

**Section B: Duncan Homestead Papers (68 folders).**

These papers were apparently collected by Annie Duncan Freeman, and were acquired by Vance Bradford from her descendants. They include miscellaneous correspondence, documents, photographs, clippings, and related items concerning the Bradford, Duncan, Freeman, Jordan, Taylor, Vance, and Weber families. When accessioned by WHMC-Rolla they were stored in a large aluminum box, from which they have been removed, arranged, and placed in 68 folders in two record storage boxes and the oversize storage cabinet. The arrangement is by person, family group, medium (photographs, clippings, etc.), or topic. A detailed list of folder titles and content summaries can be found on the separate "Folder List" for this collection. A complete collection of Dr. Bradford's annual "*Bradford Descendants*" *Newsletter* (Numbers 1-11, 1987-1997) has been filed on WHMC-Rolla's reference shelf.
